In July two of our new EMT Basic's, Brandy Cantner and Julie Hill completed their Medical Control Compliancy Requirement and are approved to operate within our Medical Control at the level of their license. This included riding alone as a 3rd member of the ambulance crew to document their skills on a number of actual emergency operation and successfully completing the Medical Control Compliancy Test. This journey started last August and has been complete eleven months later in the last week of July.

We extend our congratulations to Brandy and Julie for the milestone and their position on our staff as a EMT Basic.

Respectfully Submitted,

John W. Patchin, Chief
Gerrish Township Fire / EMS Department
